TANYA OCAMPO

Software Engineer | Chicago, Illinois | tocampo6270@gmail.com

AT A GLANCE

Software Engineer | M.S. Computer Science | Java, Spring Boot, REST APIs | Seeking Backend or Full-Stack Software Engineering Opportunities

PROFESSIONAL SUMMARY

Early-career Java developer with practical experience building Spring Boot services for a retail e-commerce client, including concurrent order-reprocessing jobs and data reconciliation and reporting scripts. Strong foundation in Java and Spring Boot, with hands-on experience with REST APIs, SQL, and GCP data services like BigQuery and Spanner. Looking to grow on a collaborative team with experienced engineers.

TECHNICAL PROFICIENCIES

Languages: Java
Backend: Spring Boot, Spring MVC, Spring Data JPA, Hibernate, Dependency Injection, Multithreading (CompletableFuture)
APIs & Data: RESTful APIs, JSON, XML, HTTP Methods & Status Codes, JDBC, PostgreSQL, SQL
Cloud & Data Platforms: GCP (BigQuery, Spanner, Cloud Storage), AWS
Testing: JUnit, Mockito, Unit Testing, TDD
Tools & Practices: Git, Maven, Jenkins, Docker, Postman, Agile/Scrum

EMPLOYMENT HISTORY

Software Developer Apprentice | Cognizant | Jul 2022 – Sep 2023

- Developed a Java and Spring Boot batch service using CompletableFuture to reprocess large volumes of stuck retail orders concurrently through downstream REST APIs, helping operations teams recover orders left pending by system timeouts.
- Built a Java script to reconcile order data between GCP Spanner and BigQuery, parsing XML and JSON payloads, flattening nested BigQuery fields, and generating CSV reports of ~100-120 mismatched orders for review and correction.
- Developed daily reporting jobs that queried BigQuery/Spanner, generated Excel reports, and uploaded them to cloud storage for stakeholder access, replacing manual report preparation.
- Developed Angular and TypeScript UI components for an internal Cognizant training quiz application, integrating them with backend REST APIs.

Production Team Lead | Motis Brands – Mac's Custom Tie-Downs | Aug 2024 – Present

- Developed step-by-step build guides to improve training efficiency.
- Enhanced accessibility for non-English-speaking team members with comprehensive documentation.
- Maintained close attention to detail during cross-departmental handoffs.
- Supported bottleneck areas to optimize workflow.
- Conducted quality inspections to ensure products met brand standards and customer specifications, improving on-time order fulfillment.

EDUCATION

Master of Science in Computer Science | DePaul University | Chicago, IL | Jun 2026

Bachelor's in Interdisciplinary Studies | Florida International University | Miami, FL | Jul 2018
